

This Event's Instructor is CAC Qualified

Paul Maguire

Paul has over 30 years' experience in the compressed air industry working in engineering, marketing and sales for two of the largest manufacturers of compressed air equipment. He has extensive experience in the design, optimization and service of compressed air systems. Paul was a part of the Atlas Copco Airpower team that laid the foundation for what is now the AIRchitect software. AIRchitect is Atlas Copco's highly regarded compressed air system modeling and analysis software tool that is used to assist clients in optimizing their system from an energy consumption standpoint. He is a compressed air challenge instructor for the Compressed Air Challenge Fundamentals of Compressed Air level of training and a Department of Energy, AIRMaster+ Specialist and energy savings expert on compressed air systems. Paul is currently working with Atlas Copco Compressors as a Distribution Sales Manager where he assists Atlas Copco distributors to apply equipment and services in a manner that saves end users energy through system optimization.

Education:

- ◆ WESTERN NEW ENGLAND UNIVERSITY, Springfield, MA Master of Science: Engineering Management
- ◆ UNIVERSITY OF MASSACHUSETTS, Lowell, MA Bachelor of Science: Mechanical Engineering
- ◆ DANIEL WEBSTER COLLEGE, Nashua, NH Associate of Science: Aeronautical Engineering
